Hall-Mills Murder Mystery.

New Brunswick, N. J., Nov. 15,-It was learned here that testimony that Mrs. Francis Stevens Hall left her home about 8 o'clock the night her choir leader, Mrs. Eleanor R. Mills, were slain, will be placed before the "There can be no question," the re- Somerset, county grand jury next A hitherto unmentioned witness, a

New Brunswick man, will tell the jurors that he saw Mrs. Hall run hurriedly from her home to the house next door, occupied by her cousin, Henry Carpender, it was authoritatively announced. The name of the witness was not made known.

The testimony which Special Denuty Attorney General Mott hopes to place before the jurors through this witness is in direct conflict with the statement of Mrs. Hall as to her movaments on the night of the tragedy, Sept. 14. She has reiterated that she did not leave her home until about 2 o'clock the following morning, when she went to seek her missing husband at the Church of St John the Evan

AWAIT OUTBREAK

Moscow, Nov. 14.-via London, Nov. 15 .- "Our slogan is to sit tight until the world red revolution breaks out," declared Leon Trotzky, people's commissar for war in the soviet government, addressing the international communist leaders today. "All we ask is that our foreign comrades give us five years more to prove the advantage of socialism over capitalism."

OF RED WARFARE

Trotzky defended state capitalism as "a step forward." He expressed the fear, however that private capitalism in Russia would increase unless the expected world revolution came soon.

THE LEFT-OVER CONGRESS AND THE NEW ONE.

A Senate filibuster against the Ship Subsidy and other measures to prevent passage by March 4 of major appropriation bills to force a special session of the new Congress chosen Tuesday is regarded as the certain decision of Democrats and insurgent Republicans.

President Harding does not wish to call a special session of the new Congress. To avert such necessity he arranged to have House leaders work during the current recess preparing the most important appropriation bills. Representative Madden, chairman of the Appropriations Committee, has been in Washington almost constantly, devoting scarcely any time to his personal campaign in Chicago. Through co-operation with the Budget Bureau, not less than five important supply bills will be ready for the House when Congress meets for the regular session on the first Monday of December.

It was the President's theory prior to the elections that the business of the country could best be served by having a "vacation" from congressional discussion and legislation between March and December of next year. With an unfavorable and, most likely, unmanageable Congress on his hands, a result of the sweep for Democrats in the House and insurgent Republicans in the Senate, his wish to avert a special session is enhanced many

The new Senate group will wish to get to work as soon as possible after March 4. They have pledged themselves to do many things, especially in the matter of railroad rates and agricultural credits. They would not wish to mark time until December, 1923, as by that time, lines will have begun forming for the presidential campaign of 1924. They would lack sufficient time to do the things they want done. The seven months which would elapse between December and the national political conventions would be too brief for their purposes.

The Democrats will wish, too, to make the greatest possible advantage of their power in the House and Senate to harass the Harding Administration at every turn. Some of their leaders, notably Senator "Pat" Harrison, of Mississippi believe they would have won more seats had they blocked the current recess and had done most of their stump speaking on Capitol Hill.

STOP IMMIGRATION FOR A TIME AND SAVE THE COUNTRY.

The Manufacturers' Record says that New England is now foreign in more than 60 per cent of its population, and no longer representative of America. We know that Massachusetts, and Boston, are dominated by undesirable aliens rather than by decendants of Puritans. Rhode Island is 69 per cent foreign, and Connecticut 65, so that we do not wonder that they have stood out against ratifying National Prohibition. Nor do we wonder that Massachusetts with 66 per cent foreign is so largely alien to our life and institutions. New York City has a population of 5,620,000, but of these 4,294,000 are of foreign stock, more Jews being gathered here than in any other city in the world, while Chicago has a population of 2,00,000, of whom 1,941,000, or 72 per cent, are of foreign stock.

We need not wonder that these places are full of Sabbath desecration and that they are the headquarters of Socialism and Bolshevism and intoxicating drink and other menacing influences. We do not wonder that such cities are the plague-spots of our wously to reduce their waist lines, but chin and across those distressing civilization and that they fight so against the clean and temperate influences that thrive in the smaller cities and rural regions that their chins. I wonder why it doesn't chin so it drops towards the chest and are the hope and strength of our Christian civilization.

The Southern States are almost entirely made up of native loyal stock, as are the rural regions of the North. The total foreign stock of the South, including Missouri, Oklahoma and Texas, is only 8 per cent, as compared with 48 per cent for the rest of the country, while North Carolina, one of the most prosperous and progressive states of the Union today, has only seventenths of one per cent of foreign stock.

These facts tend to explain some of the difficulties in some sections of the country in enforcing reforms and in maintaining moral and religious institutions. It helps to show why it is difficult for Christian life and work to make progress, and emphasizes the imperative need for the restriction of immigration. This movement did not come soon enough. Wise and responsible people have been pleading for it for years. There must be no going back.

The wireless telegraph is being used more and more in alleviating the pains of sufferers on vessels that have no doctor aboard, and to the S. S. President Polk of the United States Lines belongs the distinction of being the first vessel to treat two patients by wireless on a round trip.

On a recent trip to London a call was received for instructions in treating a sailor who was suffering from ptomaine poisoning aboard a small freighter. Dr. A. B. Ingels, surgeon of the President Polk, received a careful diagnosis of the case and wirelessed a prescription to the captain of the freighter. The captain wirelessed back that he did not have some of the drugs called for. Dr. Ingels then wired for a list of drugs on board, and on firm lines also to chin and throat. receiving the answer quickly prescribed the available drugs and waited for reports.

If winter comes, and snow abounds, and there are novelties in sleet, some chaps will utter doleful sounds as they traverse the frozen street. "We didn't lay in wood or coal before the balmy days were past, and now that arctic tempests roll, our beards are frozen hard and fast. We didn't for the cold prepare, we let things slide, as oft they've slid; we've only Palm Beach clothes to wear, as through the drifting snow we skid. We didn't fix the holes and cracks through which the fierce winds enter in, we didn't bank our divers shacks, our spuds are frozen in the bin." If winter comes the prudent man will cry serenely, where he stands, "Now shriek as loudly as you can, O bitter blasts from arctice lands! The Southern States are almost entirely made up of native methods they use to give firm young as far back as you can get it. As you loyal stock, as are the rural regions of the North. The total foreign stock of the South, including Missouri, Oklahoma and Texas, is only 8 per cent, as compared with 48 per cent for the rest of the country, while North Carolina, one of the most prosperous and progressive states of the Union today, has only seventenths of one per cent of foreign stock.

These facts tend to explain some of the difficulties in some sections of the country in enforcing reforms and in maintaining moral and religious institutions. It helps to show why it is difficult for Christian life and work to make progress, and emphasizes the imperative need for the restriction of immigration. This movement did not come soon enough. Wise and responsible people have been pleading for it for years. There must be no go-

TWO TREATED BY WIRELESS.

The wireless telegraph is being used more and more in alleviating the pains of sufferers on vessels that have no doctor aboard, and to the S. S. President Polk of the United States Lines belongs the distinction of being the first vessel to treat two patients by wireless on a round trip.

On a recent trip to London a call was received for instructions in treating a sailor who was suffering from ptomaine poisoning aboard a small freighter. Dr. A. B. Ingels, surgeon of the President Polk, received a careful diagnosis of the case and wirelessed a prescription to the captain of the freighter. The captain wirelessed back that he did not have some of the drugs called for. Dr. Ingels then wired for a list of drugs on board, and on firm lines also to chin and throat. receiving the answer quickly prescribed the available drugs and waited for reports.

For three days the messages flashed back and forth. Then on the fourth day Dr. Ingels received a radio that the man was use the exercise in connection with a out of danger and sent his thanks.

The following day another call came for help, and this time building cream or olive oil if the neck it was a seaman who had fallen and given his ankle a bad twist. This had happened two or three days before, but the seaman had not done anything and the swelling had increased, so that he began to be worried and informed the captain. IF WINTER COMES.

If winter comes, and snow abounds, and there are novelties in sleet, some chaps will utter doleful sounds as they traverse the frozen street. "We didn't lay in wood or coal before the balmy days were past, and now that arctic tempests roll, our beards are frozen hard and fast. We didn't for the cold prepare, we let things slide, as oft they've slid; we've only Palm Beach clothes to wear, as through the drifting snow we skid. We didn't fix the holes and cracks through which the fierce winds enter in, we didn't bank our divers shacks, our spuds are frozen in the bin." If winter comes the prudent man will cry serenely, where he stands, "Now shriek as loudly as you can, O bitter blasts from arctice lands! My larder's stocked with wholesome slaw, and pies, the kind all men desire, and with my broadax and my saw I whacked up wood to feed the fire." If winter comes we'll see once more how prudence wins o'er heedless sloth; it keeps the lean wolf from the door, sustains our aunts with chicken broth. If winter comes the thriftless chap will say our government's a fake; he has no mush to feed his map, the while his neighbor lives

BROKE HIS VOW

"After trying all remedies and doctors for stomach trouble for eight long years I decided I couldn't be helped and swore I would never take another dose of any kind of medicine, but when I saw what Mayr's Wonderful Remedy did for a friend, who also suffered from bloating as I did, I concluded to try it myself. It helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill and druggists everywhere.

RED CROSS EAR OF CORN FOUND

The perfect "Red Cross" ear of corn, has been discovered on a Greene County farm and is on exhibit in a window of the Sayre & Hemphill drug store.

The ear is of yellow corn, but with a perfect Red Cross formed of red grains in the ear on one side. It was found by John Stanforth, who lives on the B. Andrews farm, Cedarville, R. R 3. and turned over to Red Cross officials.

The find was timely in connection with the Red Cross Roll Call now in progress.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and

Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare, and really there is nothing better for coughs. Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way the full pint sayes about two. way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps per-fectly, and tastes pleasant—children like it.

You can feel this take hold instantly When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

What! You never wore a belted Overcoat?

It's usually the man of girth who shies at being girthed.

"That style is all right for a roadster—but I'm a limousine" said a customer lately.

We then brought out one of our Michaels-Stern belted coats which was designed purposely for portly men.

He tried it on-you should have seen the expression on his face—and you should have heard the nice compliment his wife paid us next day.

ASTHMA IS NOT A

VAGARY OF CLIMATE

Wednesday Health Talk No. 45

By G. C. DONOHOO, D. C.

Asthma is not a product of

climate, nor will a change of

climate affect a cure. Change

of climate may ease the con-

dition, but the cause is in the

spine and "the asthmatic

hump" as it is called is a well

recognized spinal accompani-

The above information was

given an asthmatic sufferer

who went to the dry climate

of South Dakota and found

some measure of relief. He

did not stop when I came,

What! You never wore a belted Overcoat?

It's usually the man of girth who shies at being girthed.

"That style is all right for a roadster-but I'm a limousine" said a customer lately.

We then brought out one of our Michaels-Stern belted coats which was designed purposely for portly men.

He tried it on-you should have seen the expression on his face—and you should have heard the nice compliment his wife paid us next day.

AWARD PORTION OF PROCEEDS IN SEAL SALE TO P. T. A.

At the meeting of the Executive Board of the Social Service League Monday night, the League decided to give 50 per cent of the net proceeds from the Christmas Seal Sale, in the City of Xenia, to the Federated Parent-Teacher Association for health work in the mothers' circles of the city schools. "Only a small percentage of the fund goes to state and national tuberculosis association headquarters for the further development of educational campaigns against this disease" Miss Milddred Prugh, chairman of the County Seal Sale Drive, emphasized Tuesday.

"The record of achievement of the past campaigns, against tuberculosis has been good," Miss Prugh said. 'The death rate from tuberculosis has been cut in half in the United States since the campaigns have been started, a saving of approximately 100,000 human lives a year. The number of deaths from tuberculosis last year in Ohio was 5,277, is the lowest on record, but it is still too high."

"If every person in Ohio will buy five cents worth of seals at Christmas time the number of deaths can be greatly lessened Greene county needs to sell \$2,000 worth of Christmas seals in order to reach her quota of five per capita. Last year the total sales amounted to \$824.26 or 2.06 per

Since there is to be such a practical disposition of funds this year in the plans to carry out the health work in the schools, since the need in Ohio to combat tuberculosis is so great, and since we are so anxious to fill Greene County's quota "Buy Christmas Seals and Stamp Out Tuberculosis." is the plea of Miss Prugh and other workers in the coming drive. ferred from Chicago to Philadelphia

Good Buckeye Gas for Good Buckeye Folks

Columbus Gasoline was made for you, to make your car run smoother and better, to keep it on the road and out of the repair shop, to add more months to the life of your engine. It was made to meet and master conditions that you encounter daily on the roads that you drive. Its purity and high test mean more power and less carbon, smoothness and pep in your engine instead of jump and jerk. It's the best gasoline you can buy. Any Columbus user will tell you that, and there are thousands of them.

THE successful salesman is the one who gets "contact" and orders.

He sells while others wait in outer offices.

He gets the man he wants to do business with on the telephone, and he always gets a hearing.

A Long Distance telephone call implies business of importance. The prospect is in a receptive frame of mind. He realizes the conversation will be brief and lets down the bars.
